## **Welcome to Sherman Publications' 2016 Business Card Directory!**

Local business is the engine that drives our local communities. The men and women who dare to run a local business provide a strong tax base for our local schools. They support local school groups, athletics and every student endeavor presented to them. Local businesses donate to area service groups and sponsor our athletes.

## **Use the 2016 Business Card Directory & support local business!**

Inside these pages residents will find a myriad of local businesses, from retail, restaurants, health, senior services to automotive and home improvement services and lots in between! This project to support our community businesses was a massive undertaking -- a four month long process. It is our privilege to present this directory to the communities we serve, and to serve the businesses which strengthen our towns.

## **Where and when you can, please shop local first!**

Towards the back of this book is an Index of Local Businesses that supported this endeavor. Please support them. Thank you to those businesses!

## REACH BEYOND YOUR GRASP

In the Brandon School district, we know there a lot of reasons people choose a school. We also know that once a choice is made, school is more than just a place to go. We have worked hard to create a district where our highest achieving students have no ceiling when it comes to academics, the arts, and athletics. From advanced opportunities at the lower grades to challenging STEM, AP, and College classes at the high school, we want to help you see how far you can go. We also know some students may not be ready for such challenges...yet.
